Our brand, our promise

Our new identity brings us together
around a shared project

**More comfort,
less energy.**

Because comfort is both subjective, sensitive and connected,
with intuis, **the experience of comfort is intended to be intuitive**.

Because the best technology is the one that serves energy
performance, **with intuis, energy is virtuous**.

What the group represents…

French manufacturer of thermal comfort for 3 priority markets

Housing

Commercial buildings

Industrial buildings

Heat pumps, thermodynamic water heaters, electric radiators and towel dryers, air heaters, air curtains;…

intuis in numbers

- + 70 years of rich history anticipating environmental & societal transitions
- + 1000 collaborators
- + €200 M in sales
- + 10 % growth per year
- 200 commercial and technical advisers
- Commercial presence on 3 continents and more than 40 countries

A French industrial model that promotes innovation

The intuis connect gateway

Season 2023 - 2024

More simplicity

- **A simple and intuitive installation**
  - Plug the intuis connect Gateway into an electrical outlet
  - Open the intuis connect App and follow the instructions to install it in a few clicks
  - The equipment connected in this way creates a mesh network which allows information to be transmitted over a long distance between equipment.

- **The intuis connect gateway aggregates all Nativ equipment**

The connected offer: intuis connect with Netatmo

Radio liaison

Pilot wire liaison

STOP AIR NOVUS NEW
Recessed air curtain

intuis

Confidential – do not distribute

The solution to limit heat loss by creating an invisible screen

APPLICATIONS

- Warehouses
- Stores
- Checkout counters
- Small shops
- showrooms

THE ADVANTAGES OF STOP AIR NOVUS

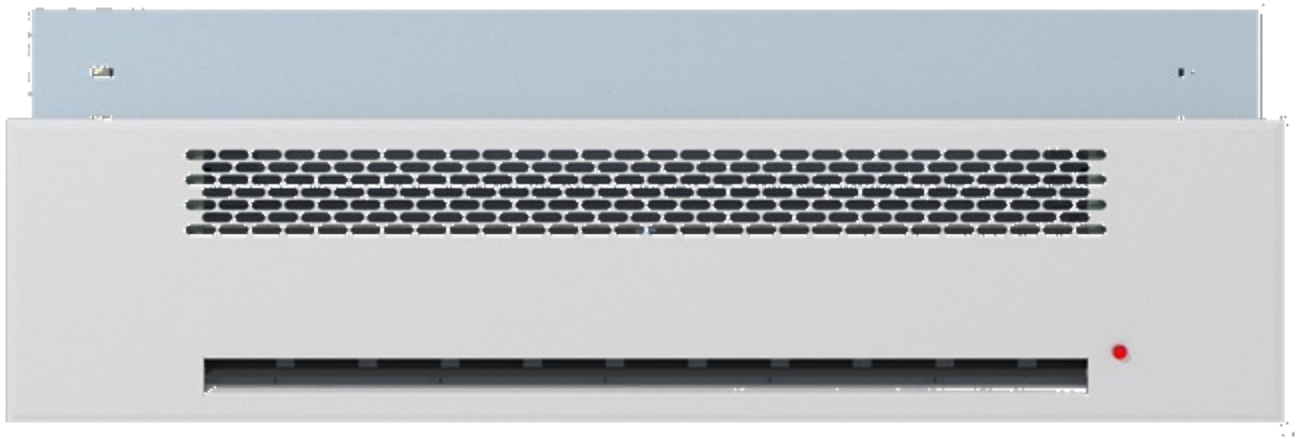

Spiraled heating element
Optimization of heating, homogeneous heat, longevity.

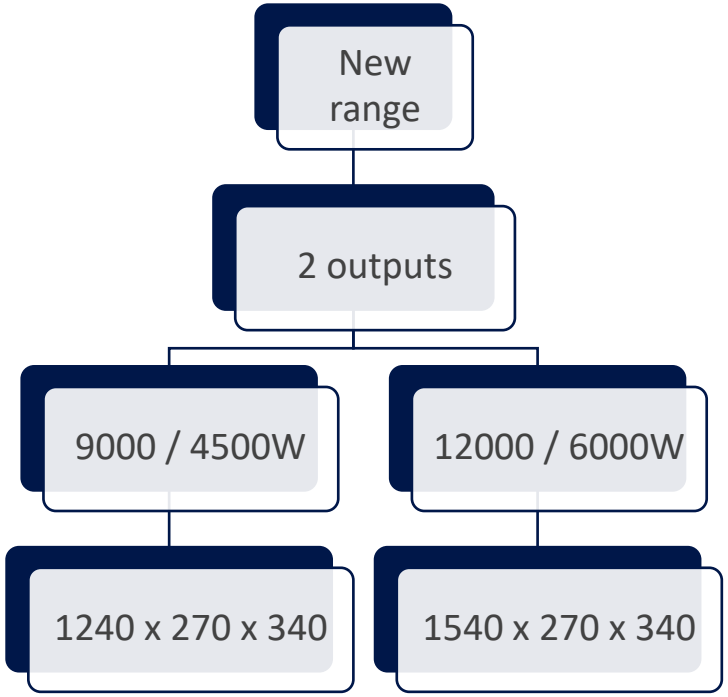

Speedy installation & easy maintenance
Connection of the control box by two wires (not polarized).
Networking air curtains with just one wire.

Confidential – do not distribute

STOP AIR NOVUS – Recessed air curtain

A complete range with 2 powers available to adapt to all installations

Confidential – do not distribute

DYBOX MT
Medium Temperature Radiant Cassettes

The solution for heating large, high-rise rooms

APPLICATIONS

- Warehouses
- Industry
- Gyms
- Showrooms
- Hangars

THE ADVANTAGES OF DYBOX MT

Monoblock emitter with ultra-emissive treatment
Optimization of radiant effect + homogeneous heat + longevity.

Double-walled frame
Optimizes radiant effect downwards (avoids heating upwards). Made of thick steel and equipped with anti-torsion stiffeners, it allows the radiant cassettes to be suspended with threaded rods or chains, but also to be wall-mounted with the supports provided.

Confidential – do not distribute

DYBOX MT – Medium Temperature Radiant Cassettes

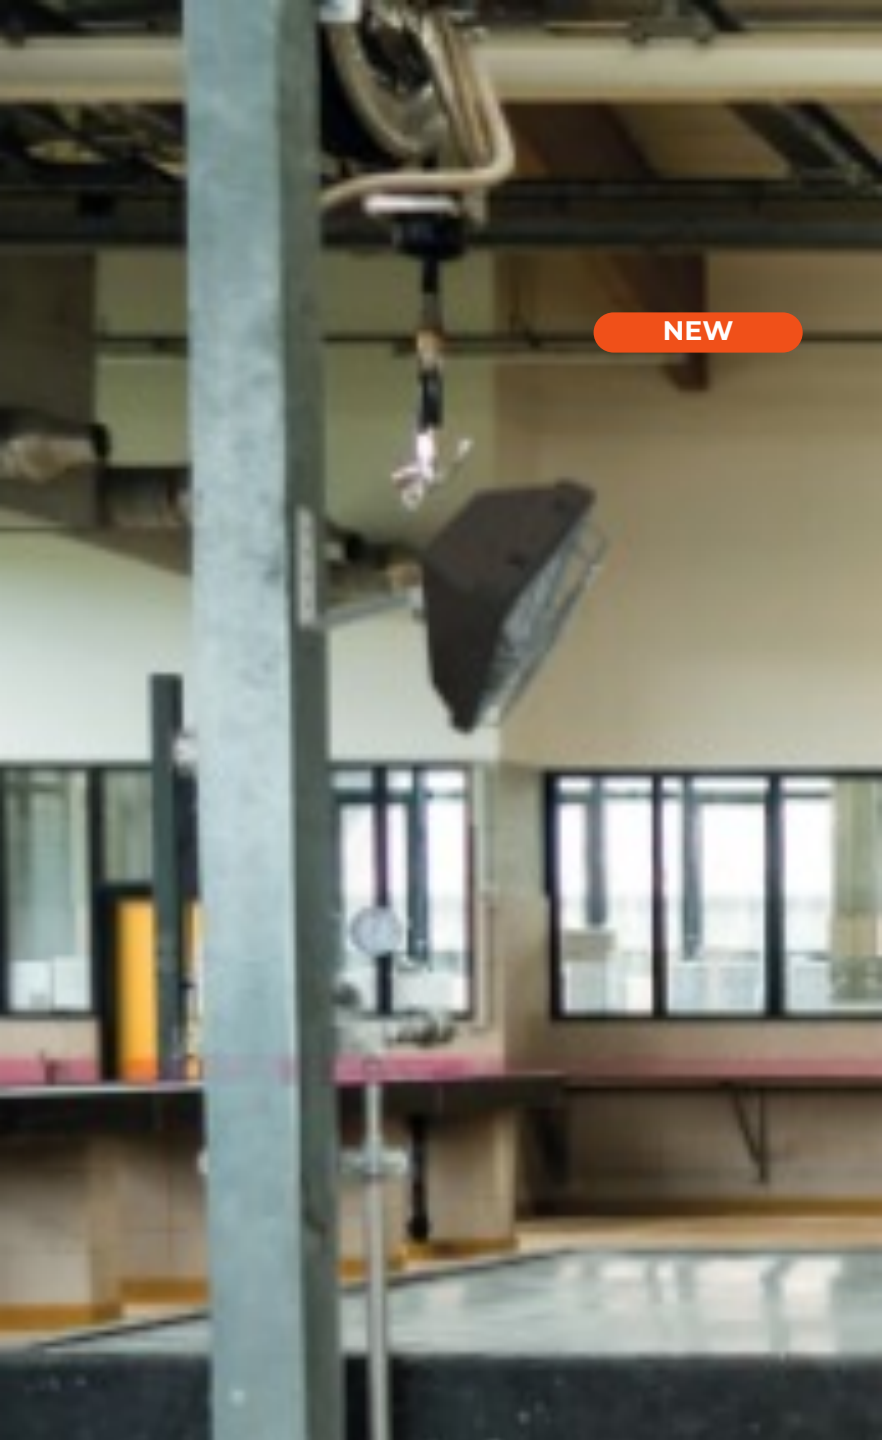

A complete range with 7 outputs available to adapt to all installations

RÉFÉRENCES CASSETTES MT

* Épaisseur : installé au mur avec son dosseret de fixation

IRC NOVUS
Long range infrared

The solution for localized heating of workstations in large spaces

APPLICATIONS

Warehouses

Workshops

Places of worship

THE ADVANTAGES OF IRC NOVUS

Helen lamp
A rapid rise in temperature and a long service life.

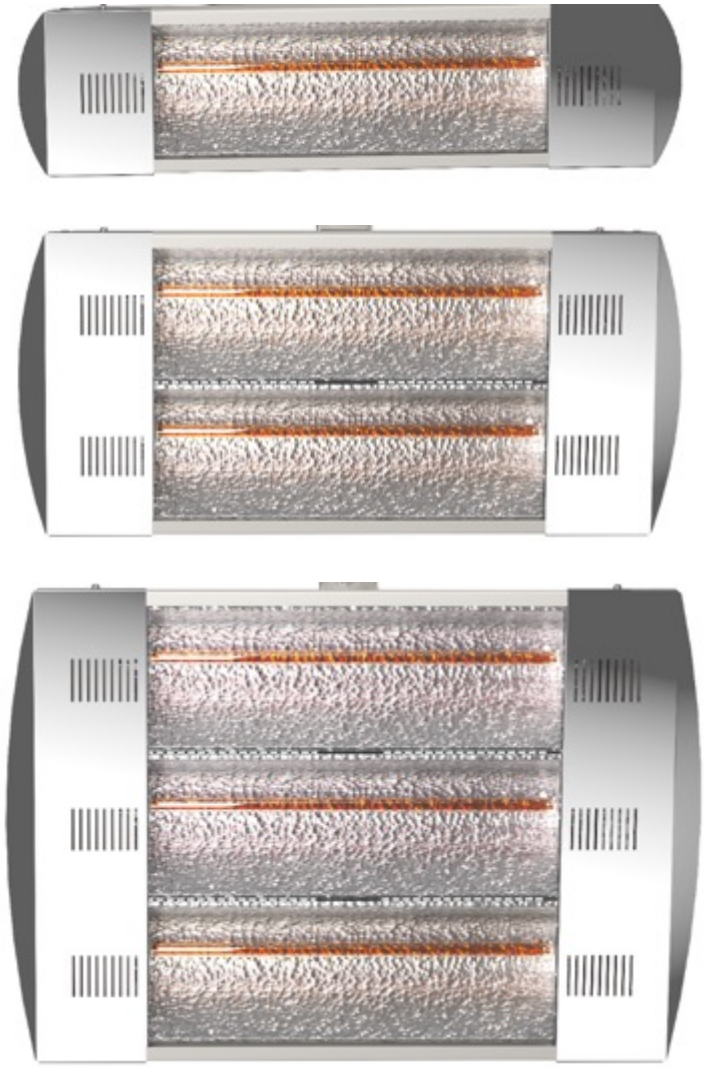

A complete range
A design and a wide range of outputs to adapt to different needs

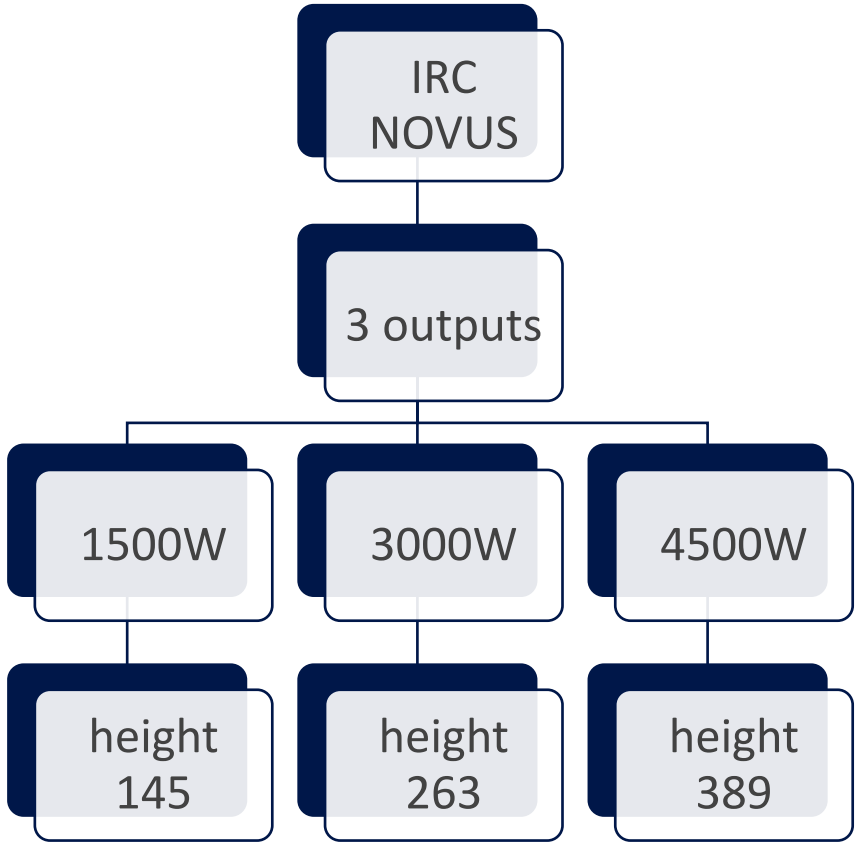

A multidirectional fastening system

Confidential – do not distribute

IRC NOVUS – Long range infrared

A complete range with 3 powers available to adapt to all installations

MORE COMFORT

LESS ENERGY
